

Centrex Inliner

Direct Drive Series

CENTREX INLINER

DIRECT DRIVE EXPANSION TO PRODUCT LINES

- **High performance**
 - Gplus EC motors provide greater efficiency, flexibility, and controllability
 - Patented, backward inclined, centrifugal wheel delivers high efficiency
- **Selection**
 - Wide range of fan speeds, CFM's, and static pressures
 - Selection of motors starting from 1/6 HP to 3/4 HP
- **Controllability**
 - Fine-tune motor to exact operating range
 - Ability to connect to building management system

CENTREX INLINER (SX)

Direct drive centrifugal Centrex Inliner (SX) fans are widely used in square ducts as clean air boosters in both supply and exhaust systems where the installation of conventional blowers is impractical.

SX fans are compact and can be installed either horizontally, vertically or at any angle determined by the duct work. Full size removable panels allow easy access to the fan interior.

Centrex Inliner (SX)

Features:

- Now offering a wider range of fan speeds, CFM, static pressure
- New additions: SX85Q, SX85S, SX85V

Fan	CFM	W.G.
SX 85	738	1.25

Options:

- Totally enclosed motor
- Compatible with Intelligent Pressure Control Module (iQ-IPCM) and Multi-Speed Controller (iQ-MS)

Intelligent Pressure Control Module (iQ-IPCM)

Multi-Speed Controller (iQ-MS)
